

TRM PRECISION BORING HEAD KITS

PRICING VALID THROUGH 2023

D'Andrea Precision Boring Heads with .0001" (.002mm) Ø Setting Accuracy

D'ANDREA®
TECHNOLOGY FOR HIGH PRECISION

The D'Andrea TRM fine boring heads bring a high precision work tolerance of IT6 with excellent surface finish as low as 0.8 Ra. Utilizing a selection of boring bars, slides and cartridges an extensive range of diameters in fine boring applications can be achieved. Fine adjustment of the boring head is achieved via a micrometric vernier scale on the dial and is easily adjusted while boring head is in the machine tool. Within the range there are 9 different sizes of boring heads available in the regular TRM offering along with 4 exceptional value boring kits which include all tooling required to cover the diameter range of each head size.

Not only are TRM heads available with the immensely popular D'Andrea MHD coupling but now expanded with 5 additional heads using the PSC Polygon Shank Coupling to ISO 26623-2 standards.

Features of TRM Precision Finishing Heads

- Diametric adjustment of 0.0001" (0.002mm)
- Internal Coolant through
- Precision Boring Capacity of;

TRM-50 – .10" to 4.25"
TRM-80 – .24" to 6.30"

TRM-63 – .24" to 4.92"
TRM-125 – 1.42" to 19.69"
